Lending a Helping Hand

Easing the financial impact felt by families affected by autism through support, services, and awareness.

Raising a child with autism is full of many joys and challenges. Pieces of the Puzzle is a non-profit charity that wants to make sure that those families with children on the spectrum get to enjoy those blissful moments more than the challenges. All this is made possible with the help of a supportive community, and that’s where we come in. Pieces of the puzzle can help to provide those families with knowledge and resources to face the obstacles in their way.

As a non-profit we are raising awareness and donations for our cause through community centered events and charity runs like The Original Mud Run and the Wicked Wine Run. But you don’t have to run or search for one of our other events if you would like to lend a helping hand you can make a donation to our foundation on our website. And you can help us provide the much needed support and services to families who need a helping hand.
